LANGUAGES

- **English**: read, write and speak.
- **Hindi**: read, write and speak.
- **Nepali**: read, write and speak.
- **Assamese**: speak.

INTERESTS

- Building Personal Projects.
- Reading Tech Blogs and Journals.

WORK EXPERIENCE

Nuvepro Technologies pvt ltd. - Software Engineer Dec 2024
- Moodle: Development of new plugin and updating the existing plugin.
- AWS Marketplace: Verification of AWS subscription with the AWS marketplace API calls and storing the data.
- Handled client calls and coordinated directly with clients to understand requirements, resolve issues, and provide technical updates.

National Informatc Centre (NIC) - Software Developer Jan 2023 - Dec 2024
- Geo Location Capture App (flutter): It captures the image and sent it to the server along with geo location data. It can capture the image offline and keeps it in the offline SQLite database and sync with server on internet connection.
- National Generic Document Registration System (NGDRS) (CakePhp, Postgres): A national-level project used by the state Land and Record department of the Assam government. Responsible for development and maintenance, this system facilitates citizen land sale form submissions, and processes deeds at every district. It also includes modules for marriage registration, NEC, and certified copies. The system is continually updated and modified to meet new requirements.

Gratia Technologies pvt. ltd. - Software Developer Aug 2022 - Dec 2022
- Developed an Attendance System using MERN stack: enabling real-time tracking, management, and reporting of employee attendance with user-friendly interface.
- Attendance System: Mobile App using React Native.

OTHER PROJECTS

Gyansrota App (Online/Offline Learning Platform)) 05/2023 - 09/2023
- It contains recorded video streaming module (online and offline), .pub file reader module, MCQ questionnaires module, Dictionary module, English speaking module, payment module, selection of courses according to language and board and class of the students and it also has admin panel to import data such as video, .pub files, MCQ question (single/bulk) and also maintain.
- Technology Stack: Flutter, NodeJs, ReactJs and Mysql database.
- Link: View.

ACHIEVEMENTS

Project Collaboration and Training in Pune - 09/2023 - 10/2023
- Selected by NIC to visit Pune for an in-depth code review and understanding of a critical project. Successfully collaborated with the team, enhancing my knowledge of the project and contributing to its progress.

Software Training for Government Officials - 07/2023
- Provided comprehensive training to the Sub Registrar Officers of Assam on our designed software, ensuring effective use and implementation of the system.

Awards - 04/2025
- Employee of the Month - April 2025
- Certificate of Appreciation for the Spot Award - 2026
